• per:85	

Projects

Edusity University Webpage	Click to view
• Developed a responsive and dynamic university website featuring key sections such as Home, About Us, Programs, and Contact Us using React.js. Implemented component-based architecture for modular development and seamless navigation. Enhanced user experience with clean UI design and responsive layout using custom CSS.	
• Tools Used: React js ,Css,Java script	
Food shopping cart	Click to view
• Developed a food shopping cart application that enables users to add food items, modify quantities, and view real-time updates of itemized and total costs. Designed a user-friendly interface to ensure smooth navigation and interaction, enhancing the overall shopping experience through responsive design and accurate cost calculation features.	
• Tools Used:React js,css	
Monthly Calender	Click to view
• Developed a user-friendly calendar application that displays the current date and allows users to view complete monthly calendars from 2019 to 2028. Designed with intuitive navigation and clear layout, the app helps users easily browse dates across years, making it ideal for planning, scheduling, or referencing past and future events.	
• Tools Used: React js ,css
